

meridianSPECIALTY System
AmeriSourceBergen®

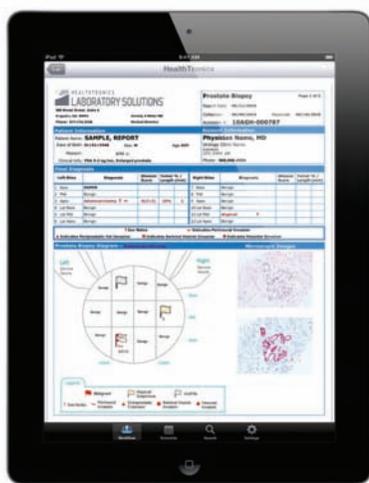

meridianMobile™ for iPhone® and iPad®

The future of EHR has arrived.

Imagine the rich functionality of your meridianSPECIALTY System combined with the mobility and fluid interactivity of your iPhone and iPad.

Introducing the meridianMobile™ app for iPhone and iPad — the native universal app designed for the busy provider. Access to your data is critical for streamlining

workflow, improving patient care and making the right decisions anytime, anywhere. The meridianMobile app for iPhone enables you to take your EHR data with you wherever you go. Move seamlessly between the hospital or clinic, office, home and beyond while maintaining comprehensive, convenient and secure access to your most current EHR data. Tap into EHR data anywhere

Lab Results Screen

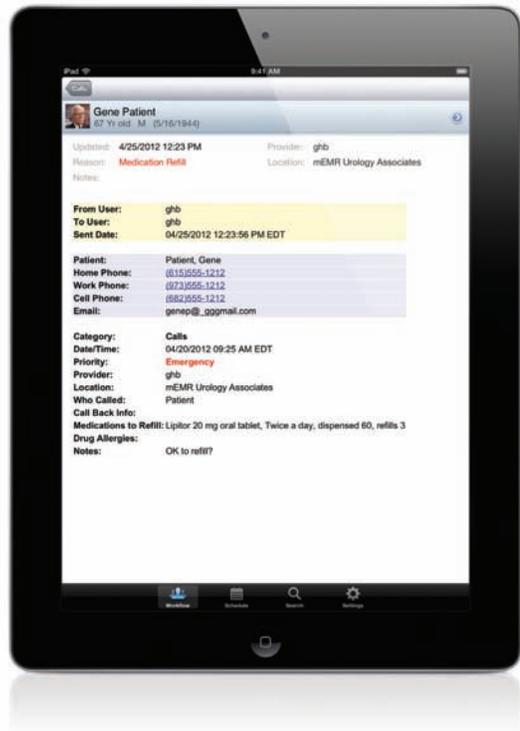

Workflow Screen

- Retrieve up-to-the-minute patient information, office visits, appointments, medications, lab results, images, patient pharmacy information, medication refill alerts, patient encounters, patient photos and more
- Hospital Rounds: quickly capture CPT, ICD and other billing information
- Fast entry of consultation notes
- View your calendar of appointments
- Secure, HIPAA-compliant, encrypted connection
- Universal app, taking complete advantage of the full screen size and resolution for both the iPad and iPhone/iPod touch®
- Native iPhone and iPad app
- Available on the App StoreSM

The meridianMobile™ native app for iPhone® and iPad® has been exclusively optimized for use on the familiar iPhone and iPad device you rely on, making the app fast, user-friendly and powerful. Plus, there is no need to sync your device to your EHR system. Your data will be kept up-to-date automatically. All data is stored on your office EHR. The meridianMobile app for iPhone and iPad efficiently exchanges current EHR data with it as required via a wireless internet connection.

meridianSPECIALTY System
lets you focus on your patients.
We do the EHR work for you.
